

IEEE SMC – Technical Committee (TC) Intelligent Green Production  
Systems (IGPS)  
Accomplishment and Great News, Congratulations!!!

Dr. Hossam A. Gabbar, Chair of the TC on IGPS (IEEE SMC) has been successful in receiving fund from IEEE-SMC for industrial project titled (Intelligent Green Industrial and Commercial Facilities - Smart Green Building), with the amount of \$3,500. The project includes activities which supports the research and innovation for student, as follows:

- The development of knowledgebase for smart green building systems engineering practices and standards.
- International workshop on Smart Green Building

The workshop will be planned in 2015/2016, more information will be communicated shortly.
